

INTERNATIONAL STEEL CONNECTORS FOR FLEXIBLE METAL CONDUIT

(TESTED AND CERTIFIED TO U.S. AND CANADA STANDARDS)

FEATURES:

- Time-saving, snap-in design for quick and easy installation
- No locknut to use or lose
- No installation tools required
- Automated assembly is easy – perfect for fast fixture whips
- Ideal for machine-fed installations
- Cost saving installation in seconds versus minutes
- Made of quality, spring steel construction
- Vibration resistant–won't dislodge in transit
- Available in both 3/8" Straight and 90° Connectors
- U.S. Patent Number 7,220,923 B1
- Complies with UL 514B, UL 1 and CSA C22.2 #18.3-04 File number LR 14901
- RoHS WEEE compliant

USES:

International Steel Connectors for Flexible Metal Conduit provide quick and easy snap-in application to the conduit either before or after wire installation. Available in both 3/8" straight and 90° these connectors eliminate the need for a locknut, providing time and cost saving installation.

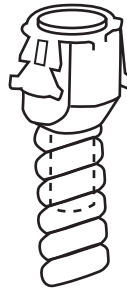

SPECIFICATIONS:

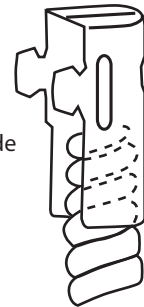

| Catalog Number | Size and Description |
|----------------|-------------------------|
| IMH-38L | 3/8" 90 ° Connector |
| IMH-38S | 3/8" Straight Connector |

Screw the straight connector into the conduit and then snap it into the knock-out.

The 90° connectors snap onto the outside of the conduit and then snap into the knock-out.
